Watch TV and capture video on your PC

Have you ever thought about watching TV via your computer? With the luxurious Eminent TV Tuner Card you receive television, teletext and radio on your computer. Tune in on your favorite radio channel or watch TV full-screen. The enclosed software is easy to install and offers you a complete media-center like experience!. Moreover, the TV Tuner Card supports TimeShifting for live TV. With this extra feature you can take a break and pause TV, rewind to replay a scene, grab still images, or skip commercials! It displays video from a VCR, camcorder or any other video source as well. All this from the comfort of your lazy chair, because the Eminent TV Tuner Card comes with a remote control.

- TV, video and FM radio with stereo sound on your pc
- Finds all TV channels automatically
- Pause, rewind, grab still images or skip commercials (TimeShifting)
- Including teletext support, video capturing, remote control and software
- Displays video from a VCR, camcorder or any other video source (composite video input)
